

# REIKI WORKSHOPS

Reiki is an art of healing that can be used on yourself and others.

Reiki (pronounced Ray Key) is a Japanese word meaning 'Universal Life Force Energy'. It works on the principle that an unseen energy flows through all living things and is connected directly to the quality of health. This has been part of the wisdom of many cultures since ancient times.

Reiki treats a patient on a physical, emotional, mental and spiritual level and has many beneficial effects including relaxation, feelings of peace, security, and well-being. Reiki is a simple, natural, and safe method of spiritual healing and self-improvement that everyone can use.

Reiki is not attached to any religion and anyone with an open mind and a desire to receive and learn how to use the healing energy will benefit from this incredibly effective therapy.

Incorporating two Reiki disciplines, one teaching the western approach and the other going back to the true Japanese origins of Reiki, our workshops cover aspects of both traditions so that you get a good grounding in your own personal development and that of healing others.

Reiki is taught in three levels (1, 2 & Mastership) with each level enhancing your knowledge and power to channel this amazing energy. Each workshop is two days.
